TRANSPARENCY IN COMMUNICATION

SIPNOC December 5, 2018

A dark-themed world map with numerous blue dots of varying sizes scattered across the continents, primarily concentrated in North America, Europe, and Asia, representing the global distribution of scam calls.

**100 Billion** scam calls  
get through to  
customers each year.\*

And the rate is steadily growing.

It's no wonder why  
**84%**  
of calls go unanswered

\*based on internal First Orion data

**FIRST ORION**  
TRANSPARENCY IN COMMUNICATION

92%

of wireless users  
want to know  
why a number is  
calling

"For all those who say  
*'just don't answer  
if you don't know the number'...*  
Must be nice to not have to worry  
about missing business calls or  
reaching customers 😞"
